A Thought for Today About the intellect

by
Dr. Johnny R. Almond

**“We should take care not to make the intellect our god;
it has, of course, powerful muscles, but no personality.”
- Albert Einstein**

To be completely left-brained could make us unvaryingly logical, cold, calculating, and uncaring.
To be altogether right-brained could make us unpredictably volatile, uncontrollably emotional.
A truly balanced life requires thoughtfulness and compassion, reflection and response.
Our Creator has given us a mind and a heart – so we would not become robots.

Our God challenges us to love Him with all our intellect – with our best thoughts.
Our Lord commands us to love Him with all our personality – with our innermost being.
Our Savior invites us to love Him with all our emotions – with all our most passionate feelings.
Our Master orders us to love Him with all our energy – with all the health and strength we can muster.

***“Knowledge puffs up, but love builds up.
If anyone imagines that he knows something, he does not yet know as he ought to know.”
[1 Corinthians 8:1b-2 ESV]***

A Thought For Today
